

COOL ROOF RATING COUNCIL

The Cool Roof Rating Council (CRRC) is an independent and non-biased organization that has established a rating system for displaying accurate radiative property data on the outermost layer of roof surfaces. Many products rated with the CRRC may improve the energy efficiency of buildings while positively impacting our environment. Interested parties, such as Building Code Bodies, Energy Service Providers, Architects & Specifiers, Property Owners and Community Planners may choose to use our Rated Products Directory to find the roofing product they are looking for.

Directory of Rated Products

Rated Products Directory:

Company: Advanced Coating Systems, Inc.

Brand: Energy Seal Coatings

CRRC Prod. ID	Manufacturer Information (sorted +)	Brand	Model	Product Type	Solar Reflect.		Therm Emit.		Slope Application
					init	3 yr	init	3 yr	
0728-0002	Advanced Coating Systems, Inc. Steve McGuinness (678-445-0040)	Energy Seal Coatings	Acu-Shield: Ceramic	Field-Applied Coating	0.86	0.78	0.89	0.89	Low/Steep
